

Guide for scoring wart phases

Note that warts come in three colours: yellow, orange and red

Stage 0: No warts or single warts

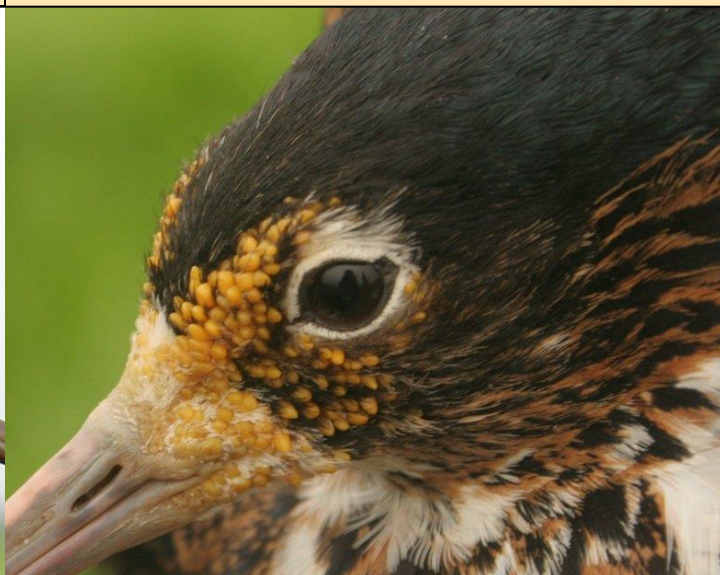

Stage 1: Multiple warts, still in plumage

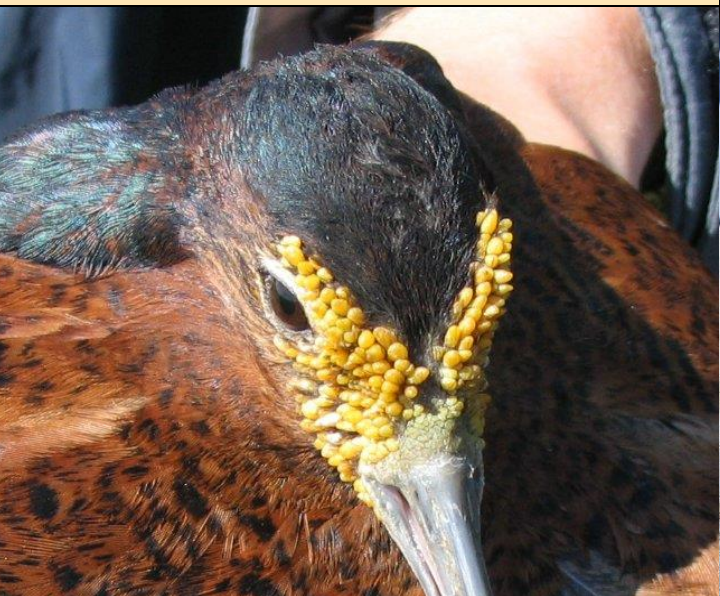

Stage 2: Warts stick out of plumage

Stage 3: Warts spread of face

Stage 4: Warts meet in the middle

Stage 5: Multiple rows of warts

Guide to recognize juvenile traits

The buff feather(s) on the wing coverts are indicative

Adult (orange)	Adult (light orange)	Adult (pink)	<i>mixed</i>	Juvenile (green)
				

If leg colour is *mixed* search for juvenile buff feathers

Juvenile

Adult
